

April 2009

AT THE END THE HI-MECH DM28576 TRAINING PROJECT PROMOTED BY WALVOIL, CASAPPA AND COMER INDUSTRIES.

Engineers and technicians awarded at Assindustria Reggio Emilia.

On April, 3rd 2009, the Hi-Mech DM28576 training project has officially ended when the representatives of Walvoil, Casappa and Comer Industries, promoting companies together with Universities and R&D Labs, have awarded the engineers and technicians involved in this R&D project aiming at developing and experimenting innovative mobile hydraulic and mechatronic systems for mini excavators. This project, lasting for three years, is focusing on comfortability and

energy saving. All the young engineers and technicians involved have followed a training in the three different companies. Thanks to this enriching and qualified experience, most of them have already been hired.

The engineers awarded are: Fabio Terenzi, Lorenzo Petronini, Matteo Negrelli.

The technicians: Andrea Pedroni, Luca Virgoletti, Andrea Pelosi, Matteo Magli, Marco Bacchi, Nicolò Adorni.
