Stand C3B1

We are pleased to invite you at

Our Exhibits are intended as just an example of many challenging possibilities that are brought forth by the synergy of **Casappa** (pumps, motors and filters) and **Walvoil** (control valves and electronics). Come to share the latest products and solutions offered by both the companies present in Brazil through their own branches: **Casappa do Brasil** in Atibaia and **Walvoil Fluid Power do Brasil** in Caxias do Sul.
