Chairman's Product Quality Award

CASAPPA S.P.A

Dear: Mario Mordacci

We are pleased to announce that our 725 Articulated Truck has won the Large Machine Category Caterpillar Chairman's Product Quality Award for 2013.

This recognition is a great honour for Caterpillar Peterlee employees but also its valued supply base. As a direct result we would like to take this opportunity to thank you & your staff for your help and commitment in helping us achieving this award.

The nomination and selection periods for the 2013 awards were in October & the winners announced at the leadership summit in February 2014. These annual awards recognise individual models within the Caterpillar family for outstanding performance in the area of product quality. Our Chairman is intent on recognising the "best of the best" and ensuring all products and brands have an equal opportunity to be recognised.

We would also like to point out that our 725 product line has made the final, in the large machine category, for the 3rd year in succession which is a significant achievement alone.

Again, thank you for your support in helping us to achieve this prestigious award.

Yours sincerely

Eric Hardin
Product Manager

Phil Handley
Managing Director

Viv Hargreaves
Platform Purchasing Manager

Product Quality Award

We are pleased to inform you that "725 Articulated Truck" has won the Large Machine Category Caterpillar Chairman's Product Quality Award for 2013.

These annual awards recognize individual models within the Caterpillar family for outstanding performance in the area of product quality.

As a direct result CATERPILLAR Peterlee A Division of Caterpillar (UK) Limited take this opportunity to thank CASAPPA's staff for its help and commitment in helping to achieve this award.

CASAPPA for this Articulated Truck supplies the gear motor KM 30 for the Fan Drive System.
